

# PROFESSIONAL SERVICES

Correctional Nutrition Consultants offers a variety of services tailored to best suit the needs of your organization. We can provide guidance off-site or visit your kitchen for a detailed analysis. A partial list includes:

- Nutritionally balanced menus customized to meet, facility, state, federal, ACA and NCCHC standards, and bid specifications.
- Nutritional Analyses
- Medical and Therapeutic Diets
- Religious Diets
- Safety and Sanitation Audits
- ServSafe Training
- ACA/NCCHC compliance/accreditation guidance
- Bid Specifications
- Customized forms and records
- In-service training and seminars
- Food and labor cost review, etc.

## Leadership Roles - Professional Associations

- American Dietetic Association (ADA) - Advisory Committee Representative to National Commission on Correctional Health Care (NCCHC)
- Association of Correctional Food Service Affiliates (ACFSA) - Chair Dietitians in Corrections Committee
- National Commission on Correctional Health Care (NCCHC) – Board of Directors and Executive Committee representing the American Dietetic Association (ADA)
- Facilitator of the worldwide Corrections Dietitians email listserv for ACFSA and CD-CHF Corrections Sub-unit.
- Consultant Dietitians in Health Care Facilities (CD-HCF) Corrections Sub-unit - Past Co-Chair
- Consultant Dietitians in Health Care Facilities (CD-HCF) – Past Alliance Representative to American Correctional Food Service Association (ACFSA)

As a registered, licensed dietitian and Canteen Services' Corporate Dietitian, I would like to introduce my company, Correctional Nutrition Consultants (CNC), and services to you. I have owned and operated CNC since 1995, specializing in the provision of food service and nutrition consultation to jails and prisons, food processors, equipment manufacturers and food distributors across the country. With more than 19 years of Corrections experience as a consultant, corporate dietitian, district manager and expert witness, CNC can help you make your food service a success! Whether you are developing a new food program, preparing for an inspection, or just evaluating your existing operation, CNC can help.

*Barbara Wakeen, MA, RD, LD*
